

Annual Print Slide and Digital Rules for 2010

The Rules were presented to the Exec Committee on 5th September.

As presented the rules were unchanged except that slides and PDIs are combined into a Projected Images category. There will be two sections in this category General (Competition Section 5) and Nature (Section 6) just as last year. Members may submit UP TO 3 images into each category.

At the meeting it was proposed to amend the Prints sections too. Instead of a limit of 2 entries in each of the three print sections (General, Nature, Monochrome) members will be allowed to enter a total of 6 prints but NO MORE THAN THREE IN ANY ONE SECTION. It was thought that this would give, say, the specialist monochrome worker an opportunity to enter more images and so perhaps increase the choice of the selectors for the PAGB Inter-Federation Competition.

There will be some further minor changes, such as the inclusion of the author name in the name of the PDI files submitted. This will make the PAGB selectors job easier in making sure that the rule governing number of images per author is adhered to.

The Rules will be published on the website as soon as they have been amended.
